It is our great pleasure to announce the first joint venture of the Society of Obstetricians and Gynecologists of Canada (SOGC) and the Canadian Menopause Society (CMS). The virtual CME program will focus on the soon-to-be released Guidelines on Menopause and Osteoporosis. The objective of this virtual program is for participants to learn the newest developments in menopausal health.

There will be a day conference followed by a series of evening symposiums. The day program will discuss the details of each topic in the guidelines. The evening program will provide the highlights instead. One of the evening programs is conducted in French and the rest in English. The speakers are the authors of the guidelines as well as leading experts on menopausal health in Canada.

Accreditation will be sought for these programs. All virtual CME content will be available to registrants one week after the last evening symposium.

We can assure you of a rewarding experience from our Canadian colleagues. We are looking forward to your participation.

Main virtual conference on Oct 29, 2021
Seven virtual evening symposia to follow

Dates of Conferences

Main Conference:

Friday Oct 29, 2021 11:55 – 5:00 PM EST
